(NOTE) Revisions to the most recently announced earnings forecasts: None

※ Notes

(1) Significant changes in the scope of consolidation during the quarter: None

New: - (Company name:-), Excluded: - (Company name:-)

(2) Application of special accounting methods for preparing quarterly consolidated financial statements: None

(3) Changes in accounting policies and changes or restatement of accounting estimates

(i) Changes in accounting policies due to revision of accounting standards: None

(ii) Changes in accounting policies other than the above: None

(iii) Changes in accounting estimates: None

(iv) Restatement of revisions: None

(4) Number of shares outstanding (common shares)

(i) Number of shares outstanding at the end of the period
(including treasury stock)

As of June 30, 2025	20,060,000 Shares	As of March 31, 2025	20,060,000 Shares
As of June 30, 2025	421,034 Shares	As of March 31, 2025	421,034 Shares
Three Months Ended June 30, 2025	19,638,966 Shares	Three Months Ended June 30, 2024	19,639,051 Shares

(ii) Number of treasury stock at the end of the period

(iii) Average number of shares outstanding during the period
(cumulative from the beginning of the fiscal year)

※ Review of the Japanese-language originals of the attached consolidated quarterly financial statements by a certified public accountant or audit firm: None

※ Explanations and other special notes concerning the appropriate use of business performance forecasts

- Forecasts of future performance in these materials are based on assumptions judged to be valid and information available to the Company's management at the time the materials were prepared. Actual results may differ significantly from these forecasts for a number of reasons. Please refer to "Overview of Operating Results" of the attached material for the assumptions upon which the forecasts are based and the cautionary statements regarding the use of the forecasts.

1. Overview of Operating Results

(1) Overview of Operating Results for the Three Months Ended June 30, 2025

WDB group is a corporate group engaged in the human resources services business centered on staffing in the field of science (chemistry and biotechnology) and CRO business (Contract Drug Development) business.

With regard to the business environment and the status of the human resources services business during the first quarter of the consolidated cumulative period under review (April 2025 to May 2025), the average of the ratio of job offers to applicants (seasonally adjusted) was 1.24 times (unchanged year-on-year) and the average of the unemployment rate (seasonally adjusted) was 2.5% (down 0.1 points year-on-year). As in the previous fiscal year, demand for the temporary staffing services provided by our group remained solid, due to the severe labor shortage, securing an adequate supply of job candidates to meet this demand poses a significant challenge.

To address this issue, our group has continued to improve the treatment of temporary staff since April 2022. In addition, since April 2025, we have strengthened our sales structure and conducted sales activities to offer a wider range of job positions aligned with job seekers' needs. By doing so, we are aiming to enhance our attractiveness to new candidates and improve the employment retention rate of our existing temporary staff when contracts for the temporary staff are terminated. In the area of permanent-time temporary staffing, we are working to strengthen our hiring capabilities by hiring new graduates on a regional basis.

Moreover, in May 2025, we released "DOCO1," a temporary staffing service platform that allows companies and corporations that desire to use temporary staffing services to place orders at the same time to multiple staffing companies and unify the management of attendance, billing, and other matters after the conclusion of contracts. Multiple clients have already decided to introduce DOCO1. We will also pursue a new approach to customer acquisition by using DOCO1 as a foothold to initiate relationships with new client and build partnerships that lead to staffing orders.

In the domestic CRO business, we conducted sales activities to offset the impact of the reduced outsourcing scope and workload at some client accounts. At the same time, we also promoted initiatives to improve the quality of our contracted services. Oy Medfiles Ltd., Finland has completed the divestiture of unprofitable divisions and have put in place a system that enables it to concentrate its management resources on the businesses of regulatory affairs, clinical trials, data management and statistical analyses, and safety assessments.

As a result of the activities described above, net sales for the three months ended June 30, 2025 amounted to ¥12,973 million (up of 0.6% year on year). Operating income was ¥1,320 million (up of 0.0% year on year), ordinary income was ¥1,338 million (up of 0.7% year on year), and net income attributable to owners of parent was ¥860 million (up of 55.9% year on year). The reason for the significant increase in net income attributable to owners of the parent was a decrease in income taxes from the previous fiscal year due to a decrease in the taxation of retained earnings.

In addition, the ratio of the operating income to net sales, an indicator we emphasize, was 10.2% (10.2% in the same period of the previous fiscal year) and the ratio of ordinary income to net sales was 10.3% (10.3% in the same period of the previous fiscal year).

Operating results by segment are as follows.

※ Segment income is before elimination of inter-segment transactions.

(i) Human Resources Services Business

In this segment, net sales were ¥11,105 million (up of 1.8% year-on-year), and segment income was ¥1,184 million (up of 15.1% year-on-year). Both sales and profits increased due to the fact that the increased remuneration of temporary staff was offset by raising temporary staffing fees and that the number of business days was 1 day greater than in the previous fiscal year.

(ii) CRO Business

In this segment, net sales were ¥1,868 million (down of 6.1% year-on-year), and segment income was ¥262 million (down of 37.2% year-on-year). Sales and profit declined due to a decrease in the volume of orders from a major client in the domestic market and the divestiture of unprofitable businesses overseas while we retained our workforce responsible for contract operations in anticipation of future orders.

(2) Overview of Financial Position for the Three Months Ended June 30, 2025

As of June 30, 2025, total assets amounted to ¥41,765 million (up of ¥12 million from March 31, 2025). Liabilities amounted to ¥8,441 million (down of ¥70 million from March 31, 2025). Net assets were ¥33,324 million (up of ¥83 million from March 31, 2025).

(3) Explanation of Consolidated Earnings Forecasts and Other Forward-looking Statements

The consolidated earnings forecasts and dividends for the year ending March 31, 2026 are unchanged from those announced on May 14, 2025. We expect to incur higher costs in the current fiscal year due to investments for the future, but the timing of these costs is expected to be from the third quarter onward.
